

Abdullah Al Masum

Full-Stack Web Developer

Gaibandha, Bangladesh | +8801717272853 | masum@masumdev.com | masumdev.com | github.com/masumgaibandha | linkedin.com/in/almasumbd

CAREER OBJECTIVE

Full-Stack Web Developer with hands-on experience building and deploying real-world web applications using React.js, Next.js, Node.js, Express.js, MongoDB and Firebase. Backed by 10+ years of international freelance experience on Upwork with 240+ completed projects, a proven track record of delivering clean, scalable solutions and managing client relationships professionally. Seeking opportunities to contribute to innovative product teams while continuing to grow as a software engineer.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS, HeroUI, DaisyUI
Backend	Node.js, Express.js, REST API Development, JWT Authentication, Better Auth, Firebase Auth, JOSE
Database	MongoDB, Firebase Firestore, CRUD Operations, Database Schema Design
Tools	Git, GitHub, Vercel, Netlify, Postman, VS Code, Figma
Soft Skills	Problem Solving, Client Communication, Time Management, Team Collaboration, Remote Work

PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

2025 – Present

Freelance / Personal Projects | Remote

- Built and deployed 15+ full-stack web applications using Next.js, React.js, Node.js, Express.js and MongoDB.
- Implemented secure authentication systems using Better Auth, Google OAuth and JOSE JWT verification.
- Designed and integrated REST APIs with protected routes, role-based access and real-time data handling.
- Deployed all projects on Vercel and Netlify with CI/CD via GitHub and environment-based configuration.

B2B Outreach Specialist & Lead Generation Expert

2015 – Present

Upwork | Top Rated Freelancer | Remote

- Completed 240+ international projects with 22,000+ working hours maintaining 92% Job Success Score.
- Managed end-to-end B2B cold email campaigns using Instantly, Smartlead, Reachinbox and Lemlist.
- Built verified ICP-based lead lists using Apollo.io, LinkedIn Sales Navigator and CrunchBase.
- Set up complete email infrastructure — domains, SPF/DKIM/DMARC and warm-up — achieving 8–15% reply rates.

PROJECTS

StudyNook – Study Room Booking Platform

Next.js · Node.js · Express.js · MongoDB · Better Auth · Google OAuth

Live: studynook-omega.vercel.app | Client: github.com/masumgaibandha/studynook | Server: github.com/masumgaibandha/studynook-server

A full-stack study room booking platform where users can list, explore and reserve study rooms. Supports user-owned rooms, booking conflict prevention and amenity-based filtering.

- Email/password and Google OAuth authentication via Better Auth with protected routes and owner-only access control
- Full booking system with conflict detection, cancellation, dynamic booking count and real-time status updates
- Search rooms by name and filter by amenities with a featured rooms section and responsive mobile/tablet/desktop layout
- Custom 404 page, toast notifications, loading spinner UI and dynamic metadata titles for SEO optimization

Tile Vista – Tile E-Commerce Platform

Next.js · MongoDB · Better Auth · HeroUI · Tailwind CSS · DaisyUI

Live: tile-vista.vercel.app | GitHub: github.com/masumgaibandha/tile-vista

A full-stack e-commerce web application for exploring and browsing tile products, featuring authentication, dynamic routing and a responsive marquee showcase section.

- User authentication with email/password and Google login via Better Auth with protected routes for logged-in users
- Category-based product filtering, search functionality and detailed product information pages
- Marquee section highlighting featured tile items with smooth responsive design across all screen sizes
- Built with Next.js, MongoDB, HeroUI and DaisyUI — deployed on Vercel with environment variable configuration

Keen Keeper – Task Management Application

React.js · JavaScript (ES6+) · Tailwind CSS

Live: keen-keeper-f3ks.vercel.app | GitHub: github.com/masumgaibandha/keen-keeper

A responsive task management app that allows users to create, update and delete tasks with a clean interface designed to improve daily productivity and focus.

- Full task CRUD — add new tasks, update existing ones and delete completed tasks with instant UI feedback

- Real-time UI updates on every action without page reload for a smooth user experience
- Clean, minimal and fully responsive interface optimized for mobile, tablet and desktop devices
- Built with React.js and Tailwind CSS — deployed on Vercel with fast load performance

EDUCATION

Master of Education (MEd) – Special Education
